

I left Grace Academy in 2017, after leaving I went into full time work and have been there ever since. However, recently I have decided to start at university course in the side of working full time.

I am currently studying Psychology at the Open University part time. I really enjoy it, I'm still earning a wage but I also get to learn in my free time.

I still don't know what I want to do as a career but at the moment I really love my job and by doing the psychology degree it is allowing so many doors to open in the future.
