

Since leaving Grace Academy, I have been studying Psychology at Aston University. I completed first year with a 1st and have just received 1sts in all my Term 1 exams and assignments for second year.

I will be volunteering in Bali, Indonesia this summer, where I will be working in psychiatric hospitals and teaching English to the community.

This autumn, I will start a yearlong placement as an Assistant Clinical Psychologist in Wolverhampton, working closely with psychosis and personality disorders amongst a complex care team.
